

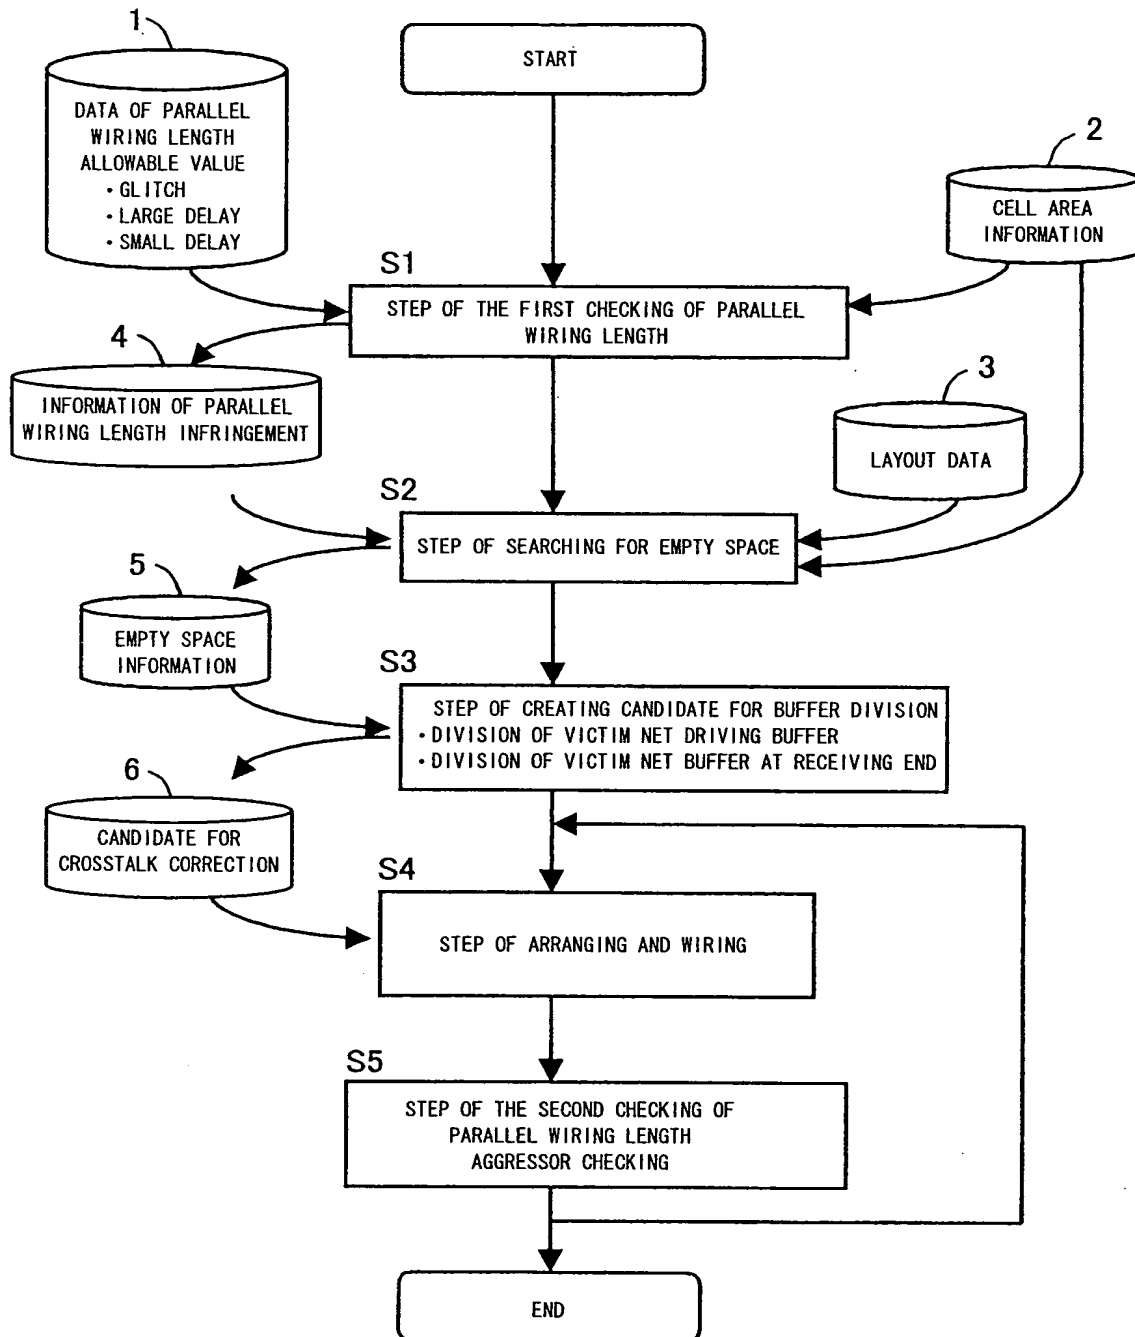

FIG. 1

A schematic diagram of a segmented transmission line. The line is divided into several segments by vertical boundaries. The segments are labeled 101, 102, 106, 103, and 107. Segment 101 contains an inverter. Segment 106 contains an inverter. Segment 107 contains an inverter. A double-headed arrow below the line indicates a "Division into inverters".
